Dear Russ,

Enclosed are pages 8 and 9 of Commission File 47. We think it relates, pretty clearly, to Vallee.

Can you carry it any further than we have, as for example, with the license number, or the people at NBC, if you know them?

The FBI interview was the day after the probation/sentencing hearing and long enough after the original 11/15 publication for that the original source could have been the papers.

I know nothing about the alleged connection of the number with Oswald.

I did get to add the CiiTrib stuff to COUP before making a limited publication.

Best regards,
